Skills Evaluation Checklist

Objective 19: Make a straight hose roll.

Task Steps		Yes	No
1.	Lay out the hose straight and flat on a clean surface.		
2.	Roll the male coupling over onto the hose to start the roll. Form a coil that is open enough to allow the fingers to be inserted.		
3.	Continue rolling the coupling over onto the hose, forming an even roll. Keep the edges of the roll aligned on the remaining hose to make a uniform roll as the roll increases in size.		
4.	Lay the completed roll on the ground.		
5.	Tamp any protruding coils down into the roll with a foot.
